Show the icons of the type search (Example: ticket icon + hotel icon + flight icon)

Sections should be in date order chronologically (1st to 31th)

AMIR PART BACKEND Ask?

The User has to activate the checkbox in the booked field by himself if booking has been made. Once activated then the section can not be changed anymore (name, price, date). If the checkbox is activated, the Book now (link to result) disappears. As long as the user has not clicked the checkbox in the booked field, the not yet booked field is still open with the Book now (=link to search result)

ISSUES with FINAL PRICES!

2 solutions thoughts:

1) If user clicks the "BOOK NOW link" then the price is automatically actualized on the table.

2) We can use the same system as (My alerts tour) with edit price, save price.

List with all information

Example: Event venue address, date / time of event?
Example: Hotel name, Hotel address, city, price, stars, check in, check out.
Example: Flight airport time/ address??
Example: Activity duration? Location?
Example: Restaurant address, phone number?
Example: Rental car pick up address, drop off address?

Below of last day of tour.
ADD notes:
This Tour price is (total costs)
